My dear Charan Singhji,

Kindly read the enclosed advance copy of my front page article in Swarajya (27-7-68). I am not happy over the breakdown of the talk you had with Sri Dandekar and Acharya Ranga. The article I have enclosed conveys my thoughts on the subject. A national union should be formed of all the parties that are willing to enter it on the terms proposed by you. The terms that I would propose are contained in the article enclosed. I feel that your mind would be in accord with what I have proposed ~~with~~ in the article.

Yours sincerely,

My dear

Your letter of July 15. I am extremely grateful for the note that you have sent me.

If I may say so with respect, I agree a great deal with you. We are all so much obsessed with our name, symbol, etc., that we are not able to set them aside for the one and sole purpose for which political parties are formed, viz., interest of the people. We are missing the wood for the trees in a way.

My friends and I hope to make a move in the direction of the National Union, as you call it, after the mid-term elections are over.

With warmest regards,

I am,
Yours
